STAY SUNNY IN SUN VALLEY

Photo by Ray J. Gadd

The Sun Valley Museum of Art

If there's one thing you see in this city, let it be whatever exhibit this fine establishment has to offer at the time. This crew puts together one hell of a show. Their most recent one, "Sightings," explores themes of human experiences of UFO sightings and extraterrestrial life, all the while asking not "what" do we see when we look up, but why we raise our eyes in the first place. Our kind of people over here at SVMOA.
